Profile

A second year Software engineering student and self-taught frontend developer looking for an internship or work in the technology industry to learn and further develop my skills. My strengths are that I am very people-oriented, good with teamwork, cooperating with others, and willing to improve with criticism. When given a task I will be dedicated and focused on completing the set work. Having an extent knowledge in how technology is also an advantage that I can bring.

Education

Bachelor of Engineering (Software), University of Technology Sydney, Ultimo

AUGUST 2020 — PRESENT

Currently in my second year of Software Engineering at UTS. I am very eager and keen on finding a job where I will be able to learn the basics and essentials of the technological workforce where I can put my skills to good use.

Frontend Simplified, Online

MARCH 2022 — PRESENT

Learning how to code using HTML, CSS, JavaScript and React.

Technical Skills

Languages: HTML, CSS, JavaScript, SQL

Core Skills

Fast Learner: Acknowledge by peers that I have an ability to learn whatever is needed to be learnt within a short amount of time.

Creativity and Designing Skills: Display in creativity and design by making websites using skills learnt in my spare time.

Team Skills: Skills achieved by following others and learning from it to be able to lead futures groups that I am in.

Other Languages: Fluent in speaking Bahasa (Indonesian)

Employment History

Front of House, Big Fat Greek, Woodbine

SEPTEMBER 2021 — PRESENT

- Greeted customers and answered any questions given.
- Followed directions from my managers and assist with doing checklists needed for the weeks prep.
